9 November 1956

**MEMORANDUM FOR: Project Security Officer**

**SUBJECT : Briefing of Air Force Scientific Advisory Board  
on Project AQUATONE**

1. This will confirm our earlier conversations on the above subject. General Putt has requested through [REDACTED] that the Air Force Scientific Advisory Board be briefed on Project AQUATONE. Following are lists of the two Panels which make up this Board:

25X1A

**Aircraft Panel**

Clark Millikan - Chairman  
Raymond L. Bisplinghoff  
Dr. Milton L. Clauser  
Al Donovan  
Robert Gilruth  
L. E. Root  
George S. Schairer

**Reconnaissance Panel**

Carl Overhage  
Dr. James Baker  
Dr. Edwin Land  
Duncan MacDonald  
Stuart E. Miller  
Phillip Strong

2. Mr. Bissell's tentative feeling on this is that possibly the Reconnaissance Panel should be briefed but that only the Chairman of the Aircraft Panel should be made knowledgeable. After receiving a security determination from you, I will advise you of any action taken concerning this.
